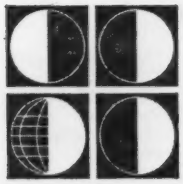
Index

SOCIAL BIOLOGY

Volume 17, 1970



ABC of Medical Genetics, An, 242–243
Ability: racial difference in numerical (abs.), 160; and educational tracking, 273; and college enrollment, 273; and college attendance, 274
Abnormalities: magnitudes and categories of risks, 207; risk estimates, 207–208; empirical risks, 208–212
Abortion: and countries of background, 18–20; clue to biochemical cause of (abs.), 77; in Taiwan (abs.), 80; and fetal mortality data (abs.), 81–82; frequency of, 102; and chromosome aberrations, 102–103; and radiation, 103–105; in India, 138
Abortion: Law, Choice, and Morality, 336
Abstracts: list of authors of, 82, 165, 252, 348
Adaptation: local physiological, 11
Adoption: among Amish, 83
Age: maternal, effect on intelligence (abs.), 77; and sex distribution among Amish, 84; at marriage among Amish, 87, 96, 100; at marriage and childspacing, 109; at marriage and education in India, 134–135; and sex distribution among the Terena, 218–219; of IUCD acceptors in India, 226–227
Albinism: evidence for genetic heterogeneity (abs.), 247
Altitude: studies of biological effects of, 114–116; research possibilities for populations at, 116–117, 118
Amenorrhea: MZ twins discordant for (abs.), 160
American Eugenics Society: annual meeting of, 231
American Friends Service Committee, 338
Amish: origins of, 83; family planning among, 83, 97–98, 99; adoption among, 83; population studies of, 83–84; compared with Hutterites, 84, 86, 87, 91–92, 93, 94, 95, 97, 98, 99; sex ratios among, 84–86; in Holmes County, Ohio, 85; occupations among, 86; marital patterns of, 86; premarital conceptions among, 86; mean age at marriage of, 87, 96, 100; sterility among, 87, 97; twinning among, 89, 97; fertility of, 91–92, 97, 100; birth intervals among, 92, 97, 98; wedding season of, 95; remarriage among, 96; increase of, 98–99; delayed marriage among, 100
Annual Review of Genetics, 243
Antigen: B among Asiatics of South Africa, 213–216
Antimutagens: described, 54
Assortative mating. *See* Mating.
Atlas of Mammalian Chromosomes, An, 70–71
Atlas of Mental Retardation Syndromes, 74
Atom bomb: radiation effects in survivors of (abs.), 247

BAILYN, BERNARD, 68
Balance theory: described, 43–44; and IUCD adoption, 50–53
Bantu: antigens of, 213
Behavior: analysis of genetic components (abs.), 247
Behavioral Genetics: Method and Research, 151
Behavior Genetics Association: proposed organization of, 63; founding of, 148–149; first annual meeting of, 232; meeting program of, 329
Benirschke, Kurt, 70
Bernard, Roger P., 246
Bergsma, Daniel, 340
Bibliography on the Genetics of Drosophila, Part Five, 243
Biochemistry of Mental Disorders, 73–74
Bionics: defined, 55
Birth control. *See* Family planning.
Birth order: effect on intelligence (abs.), 77; and childspacing, 109–110
Black. *See* Negro.
Blood groups: epistatic selection in Rhesus and MNS (abs.), 161; correlation of Rh and personality (abs.), 248; related to marital status and childlessness (abs.), 248; typing of and twin zygosity (abs.), 345
Borgstrom, Georg, 65
Brazil: Terena Indians of, described, 217; São Paulo District described, 260; inbreeding estimated in, 324–328. *See also* Fertility; Marriage.

CALLAHAN, DANIEL, 336
Carter, C. O., 242
Cashinahua: description of, 37–38; endogamy among, 38, 40; polygyny among, 38
Caste: and marriage in India, 299–300; and Indian occupations, 300; changing attitudes toward, 301; political and financial aspects of, 301
Cell: damage reduction systems of, 54; hybrid human-mouse cultures (abs.), 77–78; parasexual cycle in somatic cells (abs.), 78
Cell Structure and Its Interpretation, 70
Childspacing: intervals among Amish, 92, 97, 98; ideal data for study of, 107; and age at marriage, 109; and birth order, 109–110; and socioeconomic characteristics, 110–113
Chile. *See* Consanguinity; Marriage; Valparaiso.
Chromosome: division of, 56; carriers of 21/D translocation (abs.), 77; loss of in hybrid cultures (abs.), 78; three largest human (abs.), 78; aberrations of and abortion, 102–103; aberrations in newborns (abs.), 161; and A-bomb survivors (abs.), 247; localization of haptoglobin on (abs.), 344
College: as marriage market, 270; and function of high schools, 271; and ability, 274; factors in admission to, 274. *See also* Education.
Colorblindness: in twin pair (abs.), 160
Communication, 330
Competitive exclusion: principle of (abs.), 161
Computer Applications in Genetics, 243–244
Conception: time required for (abs.), 251–252
Congenital Mental Retardation, A Symposium, 339
Consanguinity: effects of, 2; decline in Poland, 17;

XUM

Chilean marriage dispensations for, 167, 168, 169, 176, 178; by Chilean marriage types, 168, 170, 179; effect of parental in Japan (abs.), 344
Contraception: pill users versus non-pill users, 58, 59, 61; practice among urban Negroes, 336. *See also* IUCD.
Covariance: and selection (abs.), 344
Crossbreeding: effect of, 1; in Szczecin, Poland, 3–4

DATING: and social desirability (abs.), 248
Democrats: attitudes toward population limitation, 125–130
Demographic Aspects of the Black Community, 335
Denmark: twin study of schizophrenia in (abs.), 160
Dental caries: and PTC tasting, 140–141
Developments in Fertility Control, 72–73
Dimbleby, G. W., 158
Dissonance theory: described, 45–47; and IUCD adoption, 51–53
Domestication and Exploitation of Plants and Animals, The, 158
Dorst, John P., 340
Down's syndrome: and chromosomal abnormality (abs.), 77; among newborns (abs.), 161
Dynamic Genetic Counseling for Clinicians, 242

EDUCATION: and attitude toward population growth, 29–32, 33; and fertility in Greece (abs.), 80–81; of wife and childspacing, 110, 112, 113; related to Indian age at marriage, 134–135; and ideal family size in India, 136, 137; and fertility, 185–186; and mating for intelligence, 270; as mating predictor, 271; selection in elementary and secondary, 271–273; effects of mass, 271, 277; function of high school in, 272–273; and ability tracking, 272; graduate and professional and mate selection, 276
Endogamy: among Cashinahua, 38, 40; coefficient of in Chile, 170, 172, 176, 179; among the Terena, 219; causes of, 269; educational, 270; and caste in India, 299
England: marriage and family planning in (abs.), 181
Eugenics: society in Argentina, 146; American society for, 231
Evolution: and genetic distance among American Indians (abs.), 249

FAMILY PLANNING: in Utrecht, Holland (abs.), 79; forbidden among Amish, 83, 97–98; in the United States (abs.), 163; programs related to, 190–191; in England (abs.), 181
Family size: opinions on ideal, 136, 137, 202–203; by fecundity status, 205; formation of ideal of (abs.), 249–250
Farrell, Gordon, 339
Fecundity: impairments of, 195, 198. *See also* Fertility.
Feingold, Murray, 74
Fertility: and family planning in Utrecht, Holland (abs.), 79–80; in Greece (abs.), 80–81; in the Sudan (abs.), 81; of Amish, 91–92, 97, 100; related to education in India, 132–133, 135; in West Malaysia (abs.), 162; status in the United States (abs.), 163; control of in Puerto Rico (abs.), 163; and migration in Puerto Rico (abs.), 164–165; correlates of, 180; individual and aggregative analysis of, 181; eight variables related to, 181; in 1960, 182; and infant mortality, 184; multivariate studies of, 185; and income, 185; national differences in, 185–186, 189; and female labor force, 186; and religion, 186–187; national surveys of, 192; related to planning programs, 190; and Spanish surname, 191; and Roman Catholics, 191, 192; of sterile and subfecund women, 201–202, 205–206; among the Terena, 219, 220, 221; variability in inherited (abs.), 248; in Nigeria (abs.), 252; in Brazil, 262–263, 268; by race of spouses, 294–295; in interracial marriages, 294; average levels of, 302–305; and childspacing, 305; trends in differentials in, 305–306; by socioeconomic status, 306–310; by education, 310.
Fetal loss: and countries of background, 18–20; and twins, 22. *See also* Abortion.
Fleming, Donald, 68
First Conference on the Clinical Delineation of Birth Defects. Part IV. Skeletal Dysplasias; Part V. Phenotypic Aspects of Chromosomal Aberrations, 340–341
Fuhrmann, Walter, 244

GELLIS, SYDNEY S., 74
Gene: related to birthplaces of parents, 11; effects of isolated pools, 14; and countries of background, 23–24; synthesis of, 54; defective, 55; alpha-1-antitrypsin deficiency (abs.), 78; clines of the Beta hemoglobin locus (abs.), 79
Gene frequency: in hybrid populations, 317; in Negro populations, 317, 318, 321, 322
Genetic counseling: magnitudes and categories of risks, 207; risk estimates, 207–208; empirical risks in, 208–212
Genetic Counseling. A Guide for the Practicing Physician, 244–246
Genetic Factors in Congenital Malformations, 341
Genetic load: due to cytostatic agents (abs.), 78–79
Genetics: and heterosis, 14; code of, uncovered, 54; government research support for, 144–145; and radiation (abs.), 161; symposium on impact of, 231; and environmental differences (abs.), 247–248; and future of man (abs.), 345. *See also* Behavior genetics
Ghost in the Machine, The, 75–76
Glass, Bentley, 330
Greece: fertility in (abs.), 80–81
Gregg, T. G., 237

HAPTOGLOBIN: mating types of locus, 38; probable localization of (abs.), 345
Heredity and Environment in the Functional Psychoses: An Epidemiological-Clinical Twin Study, 233–234
Herskowitz, I. H. 243
Hawaii: population decline of natives of, 279; ethnic groups in, 279–281. *See also* Marriage: Race.
Heterosis: and breeding, 1, and five traits in children, 6–7; in infants, 12; postnatal development of, 13; sex differences in, 13; genetic explanations of, 14; and placental hypertrophy, 14; in crops, 56
Hsu, T. C., 70
Human Mind, The, 149
Hutterites: compared with Amish, 84, 86, 87, 91–92, 93, 94, 95, 97, 98, 99; sex ratio among, 84; marriage patterns of, 86; sterility among, 87; fertility among, 91–92, 98–99; birth intervals among, 92–95, 97; isolation of, 95; age at marriage, 98; child care and education among, 98

INBREEDING: opposite of, 1; defined, 37; mortality effects in Japan (abs.), 248–249, 344; and physical resemblance, 269; estimated in Brazil, 324–328
Income: and fertility, 185

India. *See* Abortion; Caste; Family size; Fertility; Kota; Marriage; Selection; IUCD
Indians: genetic distance among American (abs.), 249
Indicators of Social Change: Concepts and Measurements, 152
Intellectual Migration, The: Europe and America, 1930–1960, 68–70
Intelligence: related to birth order and maternal age (abs.), 77; and intrauterine influences in twins (abs.), 160; assortative mating for, 269; in graduate students, 276; of twins and single births (abs.), 345
Intermarriage: defined, 254; increase in, 254–255; factors affecting, 256–257. *See also* Marriage; Race
Introduction to Medical Genetics, An, 341–342
Israel Multi-clinic IUD Trial: IUD Performance Patterns, The, 246
IUCD: and balance theory, 50–53; and dissonance theory, 51–53; studies of, 47; characteristics of adopters and nonadopters, 48; perceived attributes of, 48–49; perceived attitudes toward, 49; proneness to adopt, 50, 51; proneness to diffuse, 50, 51; use of in India, 226; age distribution of Indian acceptors, 226–227; religions of Indian acceptors, 227; family size of Indian acceptors, 228; interval between insertion and last delivery in India, 228–229; interval between insertion and last menstrual period in India, 229–230; expulsion, removal, and reinsertion rate of, in India, 230

JAPAN: inbreeding and mortality in (abs.), 248–249; parental consanguinity and inbreeding in (abs.), 344
Joffe, J. M., 71

KARYOTYPE: statistical analysis of normal human (abs.), 78
Kety, Seymour S., 235
Kiser, Clyde V., 154, 335
Klinefelter's syndrome: among newborns (abs.), 161
Koestler, Arthur, 75
Kota: selection intensity among, 224–225
Kringlen, Einar, 233

LACTASE: deficiency and yogurt, 143
Lactate dehydrogenase: and peptidase linkage (abs.), 344
Latin America: fertility differences in, 185, 189. *See also* Brazil; Chile; Peru.
Lorenz, Konrad, 334
Lynch, Henry T., 242

McGEE, RUSSELL, M., 70
McKinley, Daniel, 153
McKusick, Victor, 340
Malaysia: fertility and marriage in (abs.), 162
Malthus, Thomas: on United States population, 302
Man: genetic future of (abs.), 345
Man and Heredity, 246
Manosevitz, Martin, 151
Marriage: effect of distance on, 2; and fertility in Malaysia (abs.), 162; dispensations for consanguineous in Chile, 167–168, 169, 176, 178; types of consanguineous, 168; frequency of consanguineous in Chile, 170, 171, 179; data on interfaith, 253; increase in interfaith, 254; factors affecting interfaith, 256–257; by birthplace in Brazil, 260–261; and education in Brazil, 264–265; Hawaiian interracial, 279, 280, 281, 282–286; interracial in the United States, 292, 293–294; and fertility by race in the United States, 294–295; and national origin of spouses, 295–296; between castes in India, 299; age at and childspacing, 305–306; stability in black community, 336. *See also* Mating.
Masotti, Louis, H., 342
Mating: assortative described, 37, 256, 276–277; among Cashinahua, 38, 39, 40, 41; types at haptoglobin locus, 38; and dating by social desirability (abs.), 248; influences on, 256, 257, 270; assortative by intelligence, 277; patterns in India, 299; and skin color in Negroes, 318–319
Maturation: in hybrid populations, 13
Medvedev, Zhores A., 64
Metropolitan Enigma, 342
Mettler, L. E., 237
Migration: and fertility in Puerto Rico (abs.), 164–165
Miscegenation: phases of in Hawaii, 279–281
Mongolism. *See* Down's syndrome.
Moore, Wilbert E., 152
Mortality: of infants at altitude, 115–116; infant, in 1960, 182; related to fertility, 184; effect of inbreeding on in Japan (abs.), 248–249
Morton, Newton, 243
Mutation: defined, 55; and selection (abs.), 249

NATAL: origin of Asiatics in, 214
Natality: and high altitude, 114–115, 118
Natural selection. *See* Selection.
Nigeria: rural-urban fertility differences in (abs.), 252
Negro: family statures among, 121; fertility and social class, 199–201; and sterility, 204; albinism in (abs.), 247; Caucasian gene flow to, 317; bi- and tri-racial origin of, 317–318; genetic admixture to, 317–318, 322; assortative mating of, 318; blood group samples of American, 318; gene frequencies in, 319, 320–321; genetic variation among, 320–322; degree of genetic heterogeneity in, 322.
Newborns: chromosome aberrations in (abs.), 161
Number: parent-offspring correlations in judgment of visual (abs.), 345

OUTCROSSING: defined, 17
Organization and Administration of Maternal and Child Health Services: Fifth Report of the WHO Expert Committee on Maternal and Child Health, 156

PEPTIDASE: and linkage with lactate dehydrogenase (abs.), 344
Personality: and Rh factor (abs.), 248
Periodical Abstracts. *See* Abstracts.
Peru: Cashinahua Indians of, 37–38
Petersen, William, 67
Phenylthiourea: and dental caries, 140–141; tasting of among college students, 142
Placenta: hypertrophy in, 14; alkaline phosphatase types and perinatal factors (abs.), 77
Poland: demographic and biological changes in Szczecin, 14–15. *See also* Crossbreeding; Stature.
Polygyny: among Cashinahua, 38
Polymorphism: and heterozygous advantage (abs.), 162
Polyploidy: defined, 56
Population, 67–68
Population: maturation in hybrid, 13; attitudes toward increase of, 26, 28, 29–32, 33, 34; factor-promoting control of, 34–36; of world in 2000, 55s

XUM

studies of, among Amish, 83, 84; proportion Roman Catholic, 184; control of as political issue, 124; variables affecting attitude toward control of, 125–130; government support for genetic research in, 144–145; measures of potential, 182, 183; proportion Roman Catholic, 184; Malthus on United States, 302; origin of Negro, 317–318; structure of hybrid, 318–319
Population Genetics and Evolution, 237–238
Pregnancy: premarital and economic status (abs.), 250–251; and time required to next conception (abs.), 251–252
Prenatal Determinants of Behavior, 71–72
Protestant. *See* Religion.
Puerto Rico: sterilization in (abs.), 163; fertility and migration status (abs.), 164–165; birth and death rates in, 185; education and fertility in, 185, 189
Pyloric stenosis: inheritance of (abs.), 162

QUETELET'S INDEX: defined, 6

RACE: interracial crosses in Hawaii, 24; and attitudes toward population limitation, 130; and numerical ability (abs.), 160; fertility and social class, 199–201; and sterility, 204; census categories for, in Hawaii, 278–279, 285–286, 290; mixing in Hawaii, 279–281, 286; interracial marriages in the United States, 292–293; fertility of interracial marriages, 294–295; and fertility, 304–305.
Radiation: and abortions, 103–105; and human genetics (abs.), 161
Rana pipiens: compared to human populations, 24
Religion: and attitude toward population growth, 29–32, 33, 34; Roman Catholic fertility, 186–187; of IUCD acceptors in India, 227
Report of the United Nations Scientific Committee on the Effects of Atomic Radiation, 238–241
Reproduction: symposium on individuals with mental and physical disorders, 146
Republicans: attitudes toward populations limitation, 125–130
Retardation: symposium on mental, 61–62
Rh factor: and marriage and childlessness (abs.), 248; and personality (abs.), 248
Rise and Fall of T. D. Lysenko, The, 64
Roderick, G. W., 246
Roman, H. L., 243
Ross, K. F. A., 70
Roman Catholic. *See* Religion.
Rosenthal, David, 235
Roslansky, John D., 149, 330

SANKAR, D. V. SIVA, 234
São Paulo: district of described, 260. *See also* Marriage; Fertility.
Scott, Charles I., 340
Schizophrenia: twin study of (abs.), 160
Schizophrenia. Current Concepts and Research, 234–235
Selection: and mutation, 55, 249; and gene substitution (abs.), 79; epistatic, in blood groups (abs.), 161; in ecologically and genetically defined populations (abs.), 161; among the Terena, 222; genes subject to action of, 319; and covariance (abs.), 344
Serendipity in St. Helena: A Genetical and Medical Study of an Isolated Community, 332
Sex: and age distribution among the Amish; ratios among Hutterites, 84
Sheldon, Eleanor Bernert, 152
Shepard, Paul, 153
Shine, Ian, 332
Sickle cell: distribution of (abs.), 79
South Africa: Asiatics in, described, 214
Soviet Union: education and fertility in, 185, 189; genetics in, 54–56
Spain: fertility in, 185–186
Spina bifida: sex ratios in (abs.), 162
Stature: of parent related to offspring, 4–5, 6–7, 120–122; of Polish children compared, 5–6; and distance between parental birthplaces, 11; and marriage among Cashinahua, 41
Sterility: among Amish, 87, 97; extent of, in the United States, 195; categories of, 196–197; in sample population, 198–199; by race and social class, 199–201; and years married, 200; among the Terena, 219–220
Sterilization: in Puerto Rico (abs.), 163–164
Studies in Animal and Human Behavior, 334
Subfecundity: categories of, 196–197; by race and social class, 199–201; and years married, 200
Subversive Science: Essays Toward an Ecology of Man, The, 153
Sudan: fertility in (abs.), 81

TAIWAN: fetal wastage in (abs.), 80; education and fertility in, 185, 189
Tamil: B antigen among, 213, 214, 215; origin of, 214
Tay-Sachs: increase in (abs.), 162
Teeth: dental caries and PTC, 140–141
Telegu: B antigen among, 213, 214, 215; origin of, 214
Terena: described, 217
Timely and the Timeless, The: The Interrelationships of Science, Education, and Society, 330
Tiploidy: in man, 247
Tongue: and gymnastic ability (abs.), 345
Too Many: A Study of Earth's Biological Limitations, 65–67
Transmission of Schizophrenia, 235–236
Trends and Variations in Fertility in the United States, 154
Twins: fetal loss of and countries of background, 22; among Amish, 89; intelligence in (abs.), 160, 345; discordant for colorblindness (abs.), 160; discordant for amenorrhea, 160; numerical ability of (abs.), 160; schizophrenia in (abs.), 160; bloodtyping and zygosity of (abs.), 345

UCKO, PETER J., 158
United Nations, 238. *See also* World Health Organization.

VALPARAISO: description of province, 167; consanguinity in, 167–179; four zones of, 168–169
Values: in American society, 35–36
Vogel, Friedrich, 244

Who Shall Live? Man's Control over Birth and Death, 338
World Health Organization, 72, 73, 156, 341

XYY: syndrome among newborns (abs.), 161

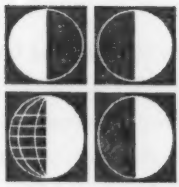
YOGURT: and lactase deficiency, 143

ZYGOSITY: of twins and bloodtyping (abs.), 345

Contents

SOCIAL BIOLOGY

Volume 17, 1970



Volume 17 **March 1970** **No. 1**

Heterosis in Man: Growth in Offspring and Distance Between Parents' Birthplaces, *Napoleon Wolański, Emilia Jarosz, and Mira Pyżuk* 1

Outcrossings in Caucasians and Fetal Loss, *Jack B. Bresler* 17

Education and Religion as Factors Influencing Attitudes Toward Population Growth in the United States, *Larry D. Barnett* 26

Phenotypic Assortative Mating among the Peruvian Cashinahua, *Francis E. Johnston* 37

Balance and Dissonance Theories of the Adoption and Diffusion of an Innovation Applied to the IUCD, *Han Young Kim* 43

Brief Reports

Genetics: Today and Tomorrow, *Svetland Vinokurova* 54

Communications

The Probability of Conception after Discontinuance of Oral Contraception: A Note on "Oral Contraception, Coital Frequency, and the Time Required To Conceive," by Westoff, Bumpass, and Ryder, *D. Wolfers* 57

Comment on "The Probability of Conception after Discontinuance of Oral Contraception," by Wolfers, *Charles F. Westoff, Larry Bumpass, and Norman B. Ryder* 60

Symposium on Genetic Counseling in Mental Retardation 62

Behavioral Genetics

Proposed Organization of an Association of Behavioral Genetics 63

Book Reviews

The Rise and Fall of T. D. Lysenko (Medvedev), *Thomas G. Gregg* 64

Too Many: A Study of Earth's Biological Limitations (Borgstrom), *R. Bruce Haldane* 65

Population (Petersen), *Gordon F. De Jong* 67

Contents

Cell Structure and Its Interpretation (McGee-Russell and Ross), *Margaret A. Kelsall* 70

An Atlas of Mammalian Chromosomes (Hsu and Benirschke), *Arnold R. Kaplan* 70

Prenatal Determinants of Behaviour (Joffe), *Ashley Montagu* 71

Developments in Fertility Control (World Health Organization), *Gilbert S. Greenwald* 72

Biochemistry of Mental Disorders (World Health Organization), *Arnold J. Mendell* 73

Atlas of Mental Retardation Syndromes (Gellis and Feingold), *Henry T. Lynch and Gabriel M. Mulcahy* 74

The Ghost in the Machine (Koestler), *Gordon Allen* 75

Periodical Abstracts

Genetics: *Gordon Allen* 77

Demography: *Jeanne Clare Ridley* 79

Volume 17 **June 1970** **No. 2**

Amish Demography, *Harold E. Cross and Victor A. McKusick* 83

Abortions, Chromosomal Aberrations, and Radiation, *Newton Freire-Maia* 102

Social and Economic Variations in Childspacing, *Maria Davidson* 107

Demography and Research with High Altitude Populations, *Gordon F. De Jong* 114

Parent Size and Growth Status of Offspring, *Robert M. Malina, John D. Holman, and Albert B. Harper* 120

Political Affiliation and Attitudes Toward Population Limitation, *Larry D. Barnett* 124

Educational Status and Differential Fertility in India, *I. Z. Husain* 132

Brief Reports

PTC Tasting and Dental Caries, *Gabriel W. Lasker and Roy R. Fernandez* 140

PTC Tasting in Two Social Groups, *Christy G. Turner II* 142

Lactase Deficiency and Yogurt, *Dee Baer* 143

Summary of Human Population Genetics Research Support by the Department of Health, Education, and Welfare: 1967, 1968, *National Institute of Child Health and Development* 144

Communications

Symposium on Differential Reproduction in Individuals with Mental and Physical Disorders 146

Eugenics Society of Argentina Celebrates Twenty-fifth Anniversary 146

Contents

Behavior Genetics

Founding of the Behavior Genetics Association 147

Book Reviews

The Human Mind (Roslansky), *John D. Rainer* 149

Behavioral Genetics: Method and Research (Manosevitz, Lindzey, and Thiessen), *Arthur R. Jensen* 151

Indicators of Social Change: Concepts and Measurements (Sheldon and Moore), *E. Gartly Jaco* 152

The Subversive Science: Essays Toward an Ecology of Man (Shepard and McKinley), *Aaron O. Wasserman* 153

Trends and Variations in Fertility in the United States (Kiser), *Jeanne Clare Ridley* 154

The Organization and Administration of Maternal and Child Health Services: Fifth Report of the WHO Expert Committee on Maternal and Child Health (World Health Organization), *Ralph Williamson Gause* 156

The Domestication and Exploitation of Plants and Animals (Ucko and Dimbleby), *Jack R. Harlan* 158

Correction: Review of *Recent Developments in Affective Disorders* (Coppen and Walk) by I. I. Gottesman 159

Periodical Abstracts

Genetics: *Gordon Allen* 160

Demography: *Jeanne Clare Ridley* 162

Volume 17 **September 1970** **No. 3**

Consanguinity in the Province of Valparaiso, Chile, 1917–1966, *B. Lazo, H. Figueroa, C. Salinas, C. Campusano, and J. Pinto-Cisternas* 167

A Multivariate Regression Analysis of Differences in Fertility of United States Counties, *David M. Heer and John W. Boynton* 180

The Fertility of Sterile and Subfecund Women in New Orleans, *Carl L. Harter* 195

Empirical Risks in Genetic Counseling, *Newton Freire-Maia* 207

The Strength of the B Antigen in South African Asiatics Related to Language Group and Religious Sect, *L. V. Milner* 213

Genetic Aspects of the Demography of Brazilian Terena Indians, *F. M. Salzano and R. Cardoso de Oliveira* 217

XUM

Contents

Brief Reports

Selection Intensity in the Kota of Nilgiri Hills, Madras, *Aloke Kumar Ghosh* 224

IUCD Acceptors in Trivandrum, Kerala, South India, *R. S. Kurup, P. S. G. Nair, and N. V. George* 226

Communications

Annual Meeting of the American Eugenics Society 231

Symposium on Advances in Human Genetics and Their Impact on Society 231

Behavior Genetics

First Annual Meeting of the Behavior Genetics Association 232

Book Reviews

Heredity and Environment in the Functional Psychoses: An Epidemiological-clinical Twin Study (Kringlen), *V. Elving Anderson* 233

Schizophrenia. Current Concepts and Research (Sankar), *Robert Cancro* 234

The Transmission of Schizophrenia. Proceedings of the Second Research Conference of the Foundations' Fund for Research in Psychiatry, Dorado, Puerto Rico, June–July 1967 (Rosenthal and Kety), *John Romano* 235

Population Genetics and Evolution (Mettler and Gregg), *R. H. Richardson* 237

Report of the United Nations Scientific Committee on the Effects of Atomic Radiation (United Nations), *Jacob I. Fabrikant* 238

Dynamic Genetic Counseling for Clinicians (Lynch), *Lee E. Schacht and Thomas H. Thelen* 242

An ABC of Medical Genetics (Carter), *Sheldon C. Reed* 242

Bibliography on the Genetics of Drosophila. Part Five (Herskowitz), *Thomas G. Gregg* 243

Annual Review of Genetics (Roman), *Edward V. Glanville* 243

Computer Applications in Genetics (Morton), *Lalit D. Sanghvi* 243

Genetic Counseling. A Guide for the Practicing Physician (Fuhrmann and Vogel), *Ntinos C. Myrianthopoulos* 244

Men and Heredity (Roderick), *Arthur Falek* 246

The Israel Multi-clinic IUD Trial: IUD Performance Patterns (Bernard), *Anrudh K. Jain* 246

Periodical Abstracts

Genetics: *Gordon Allen* 247

Demography: *Jeanne Clare Ridley* 249

Contents

Volume 17 **December 1970** **No. 4**

FIFTH PRINCETON CONFERENCE
ON POPULATION GENETICS AND DEMOGRAPHY

The Genetic Restructuring of Human Populations

Participants iii

Preface iv

Changes in Mating Boundaries

The Trend of Interfaith Marriage in the United States, *Larry Bumpass* 254

Marriage Patterns and Fertility in São Paulo, *Cândido Procópio Ferreira de Camargo, Elza Salvatori Berquó, Neide Lopes Patarra, Maria Stella Ferreira Levy, Maria Irene Queiros Ferreira Szmrecsanyi, and Cecilia Helena Ornellas Renner* 260

New Mating Boundaries in Education, *Bruce K. Eckland* 269

Interracial Marriage and Admixture in Hawaii, *Clarence E. Glick* 278

Intermarriage among Ethnic Groups in the United States, *Paul C. Glick* 292

Changing Patterns of Caste in India, *L. D. Sanghvi* 299

Fertility Trends and Estimation of Gene Flow

Changing Patterns of Fertility in the United States, *Clyde V. Kiser* 302

Gene Flow and Structure of United States Negro Populations, *Kenneth Morgan* 316

Brief Reports

Further Data on Inbreeding Levels in Brazilian Populations, *Lucia G. da Fonseca and N. Freire-Maia* 324

Behavior Genetics

First Annual Meeting of Behavior Genetics Association 329

Book Reviews

The Timely and the Timeless: The Interrelationships of Science, Education, and Society (Glass), *Carl J. Bajema* 330

Communication (Roslansky), *John D. Rainer* 330

XUM

Contents

Serendipity in St. Helena: A Genetical and Medical Study of an Isolated Community (Shine), *Henry T. Lynch* 332

Studies in Animal and Human Behavior (Lorenz), *Alexander Alland, Jr.* 334

Demographic Aspects of the Black Community (Kiser), *Ozzie L. Edwards* 335

Abortion: Law, Choice and Morality (Callahan), *David M. Heer* 336

Who Shall Live? Man's Control over Birth and Death (American Friends Service Committee), *Richard Allon* 338

Congenital Mental Retardation. A Symposium (Farrell), *Sheldon C. Reed* 339

The First Conference on the Clinical Delineation of Birth Defects. Part IV. Skeletal Dysplasias. Part V. Phenotypic Aspects of Chromosomal Aberrations (Bergsma), *Ashley Montagu* 340

Genetic Factors in Congenital Malformations (World Health Organization), *Morton S. Adams* 341

An Introduction to Medical Genetics (Roberts), *Henry T. Lynch* 341

The Metropolitan Enigma: Inquiries into the Nature and Dimensions of the "Urban Crisis" (Wilson), *Louis H. Masotti* 342

Periodical Abstracts

Genetics: *Gordon Allen* 344

Demography: *Jeanne Clare Ridley* 346

Index to Volume 17 349
